

Speed Secrets 4: Engineering the Driver

Ross Bentley. Race teams have discovered great benefits can be derived from tuning their driver to perform at his/her full potential. Thus, this book is for everyone who works with a driver: engineers, crew chiefs, team owners, mechanics, and the drivers parents. This unique book instructs the drivers support team how to prepare and communicate with the driver so the driver delivers the best performance in races, practice sessions, and off-track team functions. Written by veteran racer and driving coach Ross Bentley, this book helps the drivers support team devise effective approaches to tuning their driver. It will help them identify techniques that do and dont work with their specific driver. The result should be better communication and a driver who is tuned for success.
