

Touch (The Five Senses)

Do you remember your first realization of any of your five senses? Prolific children's author J. M. Parramon successfully tackles these tough concepts in words that 3-5 year olds can comprehend. These five colorful books awaken young minds to the wonders of the senses: the taste of oranges, the aroma of fresh-baked bread, and other sensations that give us delight in being alive. Educational, yet fun to read, this clever series is clearly written and cheerfully illustrated in flowing colors throughout. Each book includes a special scientific section to help parents answer their children's questions about the senses.

A sense is a physiological capacity of organisms that provides data for perception. The senses External senses include the traditional five: sight, hearing, touch, smell and taste, as well as thermoception (temperature differences) and possiblyA five senses theme offers great ways for children to explore exactly how well each of their senses work.
