1923. William Sydney Porter (O. Henry) was the most popular short story writer of his time. His stories typically revolved around two of his favorite themes, the situation of the impostor and fate as the one unavoidable reality of life. Another device he used was the surprise ending, usually coming about through coincidence. He was the founder of the humorous weekly *The Rolling Stone*. When the weekly failed, he joined the *Houston Post* as a reporter and columnist. He was convicted of embezzling money, although there's much debate over his actual guilt, and while in prison he started to write short stories. His first work, *Whistling Dicks Christmas Stocking* appeared in *McClure's Magazine*. After emerging from prison Porter changed his name to O. Henry. He then moved to New York and wrote a story a week for the *New York World*, also publishing in other magazines. *Postscripts* is a collection of collections of his early work on the *Houston Post*.
